

CORROSION RESISTANT HOISTS, TROLLEYS & BEAM CLAMPS

- Hoists are 100% nickel plated with stainless steel fasteners
- Hoists are lubricated with FDA approved food-grade grease within the internal gearing
- Hoists have 316 stainless steel hand chain
- 0.5t & 1t capacities can be offered with optional stainless steel load chain, as well as stainless steel top & bottom hooks
- Hoist dimensions & performance specifications are identical to the Super 100 series, see page 3
- Grippa corrosion resistant trolleys are constructed with 100% stainless steel components
- 100% stainless steel beam clamps are also available

Note:

It is the responsibility of the consumer to check the compatibility of this product and the nickel finish, with the environment and / or chemicals that it will be exposed to, in regards to corrosion resistance.
