

ELEPHANT INTEGRAL LUG MOUNT TROLLEY HOISTS, PUSH & GEARED

- Overload protection safety device
- Grade 105 corrosion resistant load chain, which adheres to the strict German DIN 5684 standard
- Zinc plated hand chain
- Double pawls supporting fail-safe brake mechanism
- Load sheave with roller bearing
- The tough reinforced gear case has four ribs and four knock pins, providing accurate gear centering and high mechanical efficiency
- Rolled edge hand wheel cover
- Heavy duty electrostatic powder coating
- Long life friction discs
- Suitable for operation within a -4° ~ 140° F temperature range
- Adjustable to fit various beam widths
- A solid carbon steel design
- The wheels of the trolley fit both I-Beams and H-Beams
- Trolley wheels are parkerized for corrosion resistance
- High quality closed bearings provide smooth traversing
- With Anti-Drop plates

Above schematics are reference only, they are not accurate portrayals for all capacities.
Reference pages 3 and 89 for complete hoist & trolley information.

SPECIFICATIONS - ELEPHANT INTEGRAL LUG MOUNT TROLLEY HOISTS, PUSH & GEARED

Capacity (mt)	Product Code	Std. Lift (ft)	Beam Width (in)	Min. Beam Radius (ft)	Combined Headroom (in)
0.5	HP(HG)100-0.5	10	2.3 - 5.11	2.95	11.7
1	HP(HG)100-1		2.3 - 5.11	3.61	12.5
1.6	HP(HG)100-1.6		2.7 - 6.1	3.93	14.5
2	HP(HG)100-2		2.7 - 6.1	3.93	15.8
3.1	HP(HG)100-3.1		3.5 - 6.2	5.58	20.5
5	HP(HG)100-5		3.54 - 7.08	7.55	24.8
7.5	HP(HG)100-7.5		4.92 - 7.48	9.84	28.5
10	HP(HG)100-10		4.92 - 7.48	9.84	31.4

10	31.4	7.4	12.1	17.0	8.6	3.3	8.9	1.8	6.2	9.8	2.9

- 1) Dimension B and C are applicable when beam width is max.
- 2) Dimension H is applicable when beam thickness is max.
- 3) For Dimension M, please check the beam width on the specifications.
- 4) Dimension N is applicable when safety latch is opened.
- 5) Contact the factory for wide beam applications
